

Pages

* pages may look slightly different depending on further dev and if new information is uploaded to each site

Helpful Things to Know

- Next.js looks for `page.tsx` to render a page (so, any pages you want must be named `page.tsx`)
 - The folder structure (i.e. `/mappingNY`) changes the domain
 - The project must contain a root `page.tsx` page, this currently just redirects to the other pages we made
- Next.js uses `layout.tsx` to apply elements to all children pages in that folder
- The "public" folder is used to store static images you use
- The "api" folder is specific, so don't try to change it much
 - Next.js looks for that with the API calls
 - Specifically, you need the `route.ts` files for handling those calls
- Prisma is used to connect the frontend website to the MongoDB backend

Check to Register Account ☐

Notice that account registration is implemented on this page, it is the only one since Nitin didn't ask us to use it for any other page. So, if he wants that functionality implemented, here's a functional solution you can use or base off of (found in /app/drawing/login/page.tsx)

** you also need to look /app/api/drawing/auth/register/route.ts for any changes made to the API (since it was incorrect at first)

The screenshot shows a file explorer interface with a directory tree. A red box highlights the folder 'right-info-bar...'. Inside this folder, the file 'page.tsx' is highlighted with a red arrow. The directory structure includes folders like 'next', 'app', 'chronomaps', 'drawing', 'fonts', 'helpers', 'mappingNY', 'components', 'drawing', 'forms', 'layers', 'loading', 'map', 'map-filters', 'map-up.tsx', 'right-info-bar...', 'slider', 'new-map-gr...', 'new-section...', 'login', 'page.tsx', 'models', 'northamerica', 'compare.css', 'favicon.ico', 'globals.css', 'layout.tsx', 'page.tsx', 'popup.css', 'slider-timeline...', 'document', 'node_modules', and 'prisma'.

The screenshot shows a file explorer interface with a directory tree. A red box highlights the folder 'right-info-bar...'. Inside this folder, the file 'page.tsx' is highlighted with a red arrow. The directory structure includes folders like 'next', 'app', 'chronomaps', 'drawing', 'fonts', 'helpers', 'mappingNY', 'components', 'drawing', 'forms', 'layers', 'loading', 'map', 'map-filters', 'map-up.tsx', 'right-info-bar...', 'slider', 'new-map-gr...', 'new-section...', 'login', 'page.tsx', 'models', 'northamerica', 'compare.css', 'favicon.ico', 'globals.css', 'layout.tsx', 'page.tsx', 'popup.css', 'slider-timeline...', 'document', 'node_modules', and 'prisma'.

The screenshot shows a file explorer with a project structure. A red box highlights the 'map-filters' folder. Red arrows point from this folder to the 'map-filter-...' and 'map-filters-...' files, indicating the files to be opened.

The screenshot shows the VS Code interface with the file explorer on the left. The 'map-filters' folder is highlighted in blue. Red arrows point from this folder to the 'map-filters' folder in the project view on the right.

The screenshot shows the RStudio file explorer on the left side of the interface. The 'buttons' folder is highlighted with a red box. Inside the 'buttons' folder, the 'button-link' file is highlighted with a red arrow. Other files visible in the explorer include 'color-picker', 'LayerForm...', 'LayerGroup...', 'MapForm...', 'NewLayer...', 'NewMapGr...', 'preview-ic...', 'ZoomLabel...', 'layers', 'loading', 'map', 'map-filters', 'right-info-bar', 'slider', 'new-map-gr...', 'new-section...', 'new-section...', 'new-section...', 'login', 'page.txt', and 'models'.

The screenshot shows the RStudio interface. The 'Source' pane on the right displays a file explorer. The 'buttons' folder is highlighted with a red box, and the 'login' file is highlighted with a red arrow. The file explorer shows a hierarchy of folders and files, including 'app', 'api', 'chromaps', 'drawing', 'fonts', 'helpers', 'mappingNY', 'components', 'drawing', 'forms', 'buttons', 'button-link...', 'zoom-lab...', 'color-picker', 'ButtonLink...', 'LayerForm...', 'LayerGroup...', 'MapForm...', 'NewLayer...', 'NewMapGr...', 'preview-ic...', 'ZoomLabel...', 'layers', 'loading', 'map', 'map-filters', 'right-info-bar', 'slider', 'new-map-gr...', 'new-section...', 'new-section...', 'new-section...', 'login', 'page.txt', 'models', and 'north-america'.

Timeline

The screenshot displays the 'New Amsterdam | Mapping Early New York' web application. The main map area shows a historical view of Manhattan, with a timeline slider at the bottom indicating the date '01 Jan 1663'. The map is overlaid with the '1600 | Castello Plan' layer. The left sidebar contains a 'LAYERS' panel with various historical map layers and a 'MAPS' panel with different map styles. The top navigation bar includes links for 'ABOUT', 'Sign In', 'Encyclopedia', and '3D Map'.

Database Elements

*** Not all collections in the DB are used, they just existed before this group
picked up the project, so they may be unnecessary**
